

CALL FOR PAPERS

60th Annual Convention
October 10-12, 2010
San Antonio, Texas

Hosted by the South Texas Geological Society

Welcome back to San Antonio! Our theme this year is ***“Weathering the Cycles”*** – a challenge that resource geologists certainly have faced and overcome in the past! How do we weather the economic cycles? We...

- ✓ Network with our community
- ✓ Experience the latest technology in the technical exhibition
- ✓ Take a course or a trip and grow new and diverse skills
- ✓ Listen to special presentations on strategies to endure and prosper during an economic downtime and prepare for the inevitable rebound.

By celebrating our successes, facing our challenges, and learning from the research results of our peers, we are paid back many fold by sharing ideas and experiences among our professional community. So come and share your experiences! Suggest a session topic, present an oral paper or a poster, learn about the latest ideas and technologies in our field. Come to San Antonio and enjoy the Gulf’s own geoscience convention!
